WINDOWS RETAIL STORE SOFTWARE

In today's "**high tech**" world of computers, the price of a high powered computer system is now affordable for any size furniture dealer. You can afford to computerize your store! However, the whole secret is in the quality of the software – **not** the computer. As you might guess, we have many unique software needs for our industry. "*Off the Shelf*" software simply won't work! I know, because years ago, I made the big mistake of trying to "*Save A Buck*" in my own retail store, only to find that the software was not specific enough for the industry. That's when I began designing my own software.

Custom Design Software is a powerful program designed exclusively for retail store like yours. The program features "**Nuts & Bolts**" information and reports that are easy to comprehend without the need for a

CPA to decipher. A great feature of my software is its design which allows you to run any of the modules as a free standing program. In this way, you can get used to the software, one module at a time, yet, when the modules are used together, the program becomes fully integrated. Can you imagine how *difficult* it would be if you had to start all modules at one time as my competitors do?

If you are ready to streamline your store's operating costs by saving endless hours of manually entered journals and ledgers, eliminate your CPA's outrageous monthly fees and cap the high cost of office personnel, then

Custom Design Software is made for you.

Custom Design Software will get you out of the office and give you the time to *gain control* of your business.

Rated the Industries "Best Value!"

Jerry Katz, CEO

Since 1991

Yes... You Can Do It!

“The Easiest Furniture Store Software Package in the Industry!”

“Point-and-Click” is all you do... the software automatically anticipates your needs.

To create a new Bill Of Sale, enter the Customer's complete telephone number. If the customer is in the database, their complete mailing information is displayed. Otherwise, you simply type in the information requested.

After the customer's information is entered, a "Help" window opens and displays the Sales Staff. Click on up to 3 sales people for splits. They are automatically entered onto the Bill Of Sale.

Automatically, the screen switches to the merchandise section of the Bill of Sale. Automatically, a window appears requesting you to click on “OK” to enter a factory style number.

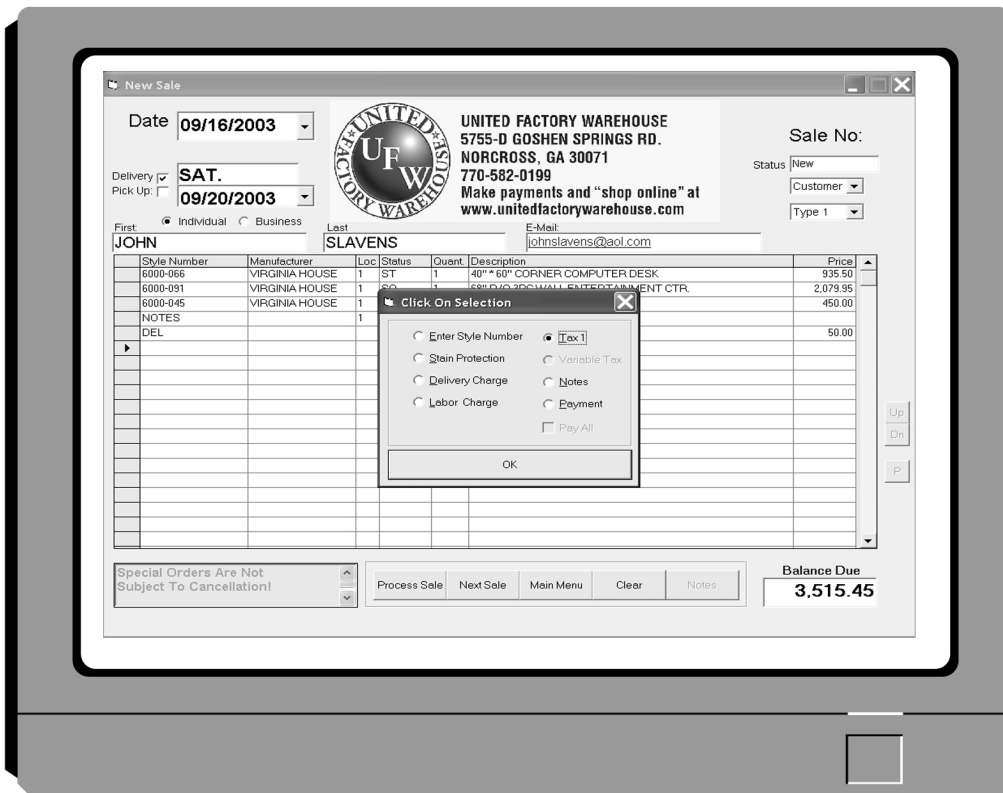

To find the style number, type in any of the first few digits of the style number and the Help window opens up showing the style numbers that begin with those digits typed in. If you're not sure, click on “Desc” button and the complete description of the item is shown next to the style number. “Double Click” on the correct style in the help window and it automatically inserts the item sold onto the order. You can also search by manufacturer.

As soon as you enter a style number, the computer automatically inserts the descriptive information and the default "Selling Price" of the item on the order. The price can be overridden, if necessary. Enter the quantity and how the item was sold. Inventory is automatically reduced if selected.

This customer was charged for delivery so Delivery is "Clicked On." This could also have been Stain Protection or Labor Charges. Enter the amount and the computer calculates the balance. In addition, a "Note" line could be added as needed.

Next, Sales Tax is “Clicked On” and the computer automatically calculates and inserts your State Sales Tax on the Bill Of Sale. Custom Design Software easily handles multiple sales tax rates. We can also do a “Tax Included Sale” with a click of a mouse. No Calculators.

Finally, the customer makes a deposit on the sale. As soon as you click on Payment, the payment choices “Pop Up.” Click on the payment method and enter the proper amount on the Bill of Sale. We also have Credit Card processing built directly into the software. The credit or debit card is swiped and the approval comes back in 8 seconds. The software prints the approval number and last 4 digits of the card directly on the sale. Processing rates are fantastic! Up to 4 copies of the sale can be printed.

Late Orders

Tired of lost sales or additional customer discounts? Just click this icon and the software automatically generates a list of all orders that are late arriving beyond their original due date. Click the other icon and the software sends the factory an email asking for an explanation of why the order is late and new due date for the shipment. Then, you can email your own customers with the updated information saving enraged customers who feel you don't care about them.

Best of both worlds! If you do a lot of Cash & Carry sales similar to a department store, you can turn your counter computer into a complete cash register system. Use our keyboard scanner below, to scan the barcode on the retail price tags for items brought to the counter. You can optionally get their name and address or quickly scan the item and get the customer out the door.

We also have credit card processing built directly into our software. So, if they pay by credit card, you swipe the credit card swiper attached to your computer and the approval is returned in about 8 seconds! The approval number and last 4 digits on the card and a signature block are printed on the POS or Dymo printer. We will give you 1 free swiper when you sign up for processing. An optional cash drawer can be automatically opened up, if purchased, to complete the system.

Only with Custom Design Software can you take an open sales order, delete an item on the sale, add items to a sale, or a combination of both! Over 30 years of furniture experience allows us to offer this feature with a complete audit trail for both the merchandise and the accounting. This can even be done for sales in prior months. ***How many sales do you have to rewrite each week?***

INVENTORY CONTROL

This is the completed Inventory record. First, enter all the requested information. The computer automatically calculates the landed cost and all the price points based on your GM and factory list. A retail price tag with your logo is automatically printed. Using a scanner or digital camera, the picture is automatically inserted into the database.

Click on the “Detail” button and every transaction on this item will be listed in the window. The Customer’s Name, Bill of Sale Number, P/O Number, Invoice Date, Invoice Number and Date of Delivery and Location and type of transaction are readily available. You can also make a duplicate price tag or create a P/O on the fly, or print a copy of the record on your printer.

Never miss a sale again because of an “Out of Stock” item! Simply bring the customer to the computer and access the “Customer Preview” screen. A full-color picture of the item appears on the screen. A copy can be printed for the customer if needed. Also, the sales person can click the button and the Inventory at all locations appears. Click again and the inventory is gone. We can also build a store catalogue by department or by manufacturer.

If you're the creative type, you can create your own Custom Store Price Tags in any size; shape and colors. You can also add pictures to your tags! When your done, save the layout and you now can print your tags by manufacturer, department or for everything in the store. You can also purchase preprinted tags from Sale Signs, or NHFA and then match the location of the pricing on their tags.

Build Your Own Web Site with E-Commerce

Custom Design Software can automatically build an entire Web site with the ability for customers to purchase directly thru the internet. This site includes paying for the merchandise directly on line and depositing into your own bank account! Now your store is open 24/7 and a new world of sales opportunities! Orders are automatically processed on line and inventories are automatically reduced in the computer. The software prints out a sales receipt just like the customer is there in your store. The sales receipt can then be automatically emailed back to the customer. Incredible! An E-Commerce site alone would cost your over \$7000.00 and it's FREE with our software.

(Sample: www.customdesignsoftwareonline.com)

Complete Bar Code System

The front end of the Bar Code System is for the Sales Staff. All our price tags are automatically generated from the software with the bar codes included. The sales people can either use the inexpensive Mini Scanners or the wireless data collector to help create the sale. The Mini Scanner will scan about 50 bar codes and when the sale is complete, you bring the Mini Scanner to the computer, plug it in, and it will bring up all the items on the sale with 100% accuracy. If the salesperson uses the wireless Bar Code Data Collector (top right), the entire sale can be created right on the sales floor. You can also use the Data Collector to check stock in real time, make package prices, and check margins on one piece or packages.

The back end of the Bar Code System is for warehouse management. Use the data collector to take physical inventories, either by department, manufacturer or your entire Inventory at one time. When the data collector uploads to the computer, we print out a Discrepancy Report where you see only the items that are out of balance. We can also pin point every piece of inventory in your store! We specialize in large racking system warehouses. (Bin, Isle, & Bay) With the Dymo Label Printer, you can automatically print receiving labels as you receive your purchase orders. Then, slap the bar coded labels on the cartons to get your entire warehouse tagged.

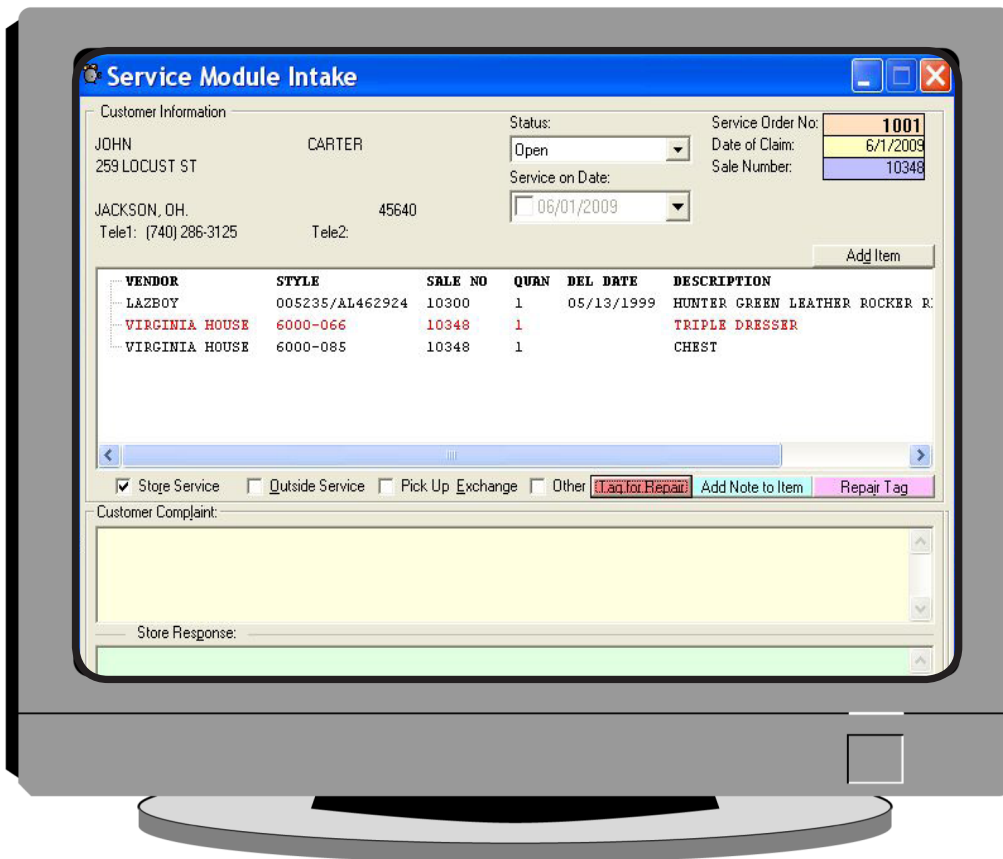

Is Your Service Department A Mess?

One of the biggest problematic areas of a furniture store is the service department. All stores have problems big and small! It's just the quantity that differs. At Custom Design Software, we excel in the service department so you don't have to worry about it. Not only can we create a service call but we can directly order parts, request factory credits, include pictures of the damage directly on the service call. All this is done automatically by clicking on an icon and emailing directly to the factory.

Service Intake Form

When a customer calls on the phone, just bring up the Service Intake Form by the customer's name, phone number or Bill of Sale number. A complete history is generated on the screen as shown at left. Select the item she bought and tag it for service. Just type in the customer's complaint and what the store is planning to do about it. Add a color picture of the damage and print the completed service call. Later, you can directly order parts if needed with the invoice number automatically included. Email the parts order into the factory. Finally, if you need to request credit for your labor, just click a button and the letter is emailed. This is a money maker!

Just enter the customer's telephone number and the software generates a Life Time history of everything the customer purchased from the store. You simple click on the item with the problem and the service call is automatically

generated complete with the factory Invoice number. The notes are time and date stamped automatically. The service call can also be set into the delivery schedule.

Description:
TRIPLE DRESSER

Notes:

We inspected the top on the above dresser and found it to be seasonally split. Please send a replacement top No Charge, Prepaid freight.

Charge Back Letter Printed: 4/26/2007

If there is labor involved on replacing the part, dealers usually absorbs the cost because it takes too long to look up the Invoice number and date of the shipment. Plus, the time it takes to write a letter to the factory requesting repair costs is not worth their time. As a result, we

lose money in repairs daily. With our software, just a mouse click generates a complete charge back letter, completely documented and crossed referenced with the service call and parts orders. The factory can't refuse our documentation.

ACCOUNTS PAYABLE MODULE

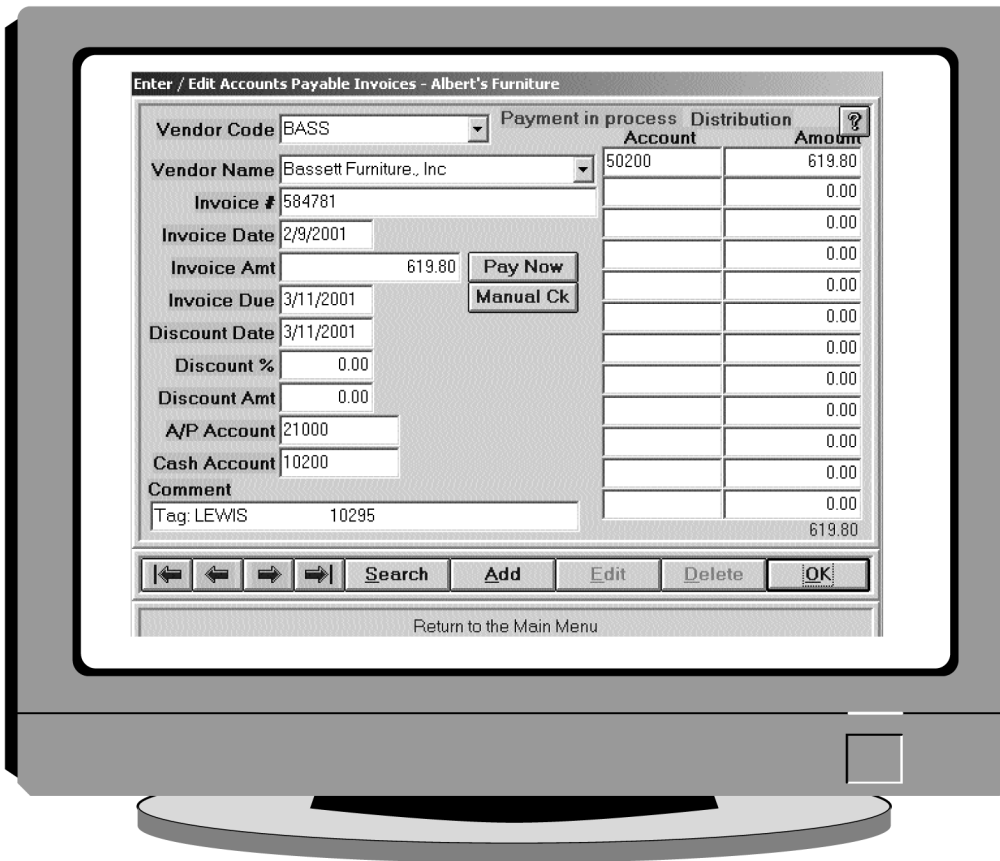

Each Accounts Payable Vendor is entered into the vendor database once only. Individual discount terms can be assigned to each vendor.

From the original Purchase Order, when the factory acknowledgement comes in, the cost can be corrected if needed. The new cost gets updated to the customer's order or to the Inventory database if the items were for stock. When the merchandise comes in, a press of the "Receive Button" will receive the entire shipment or you can individually receive the items in case you are partial shipped. The transaction entry goes directly to Accounts Payable Module so it does not have to be entered twice. If the order is for stock, you will be prompted to automatically print out a price tag for the floor. Then a Receiving Report is generated with the Customer's name and telephone number listed.

To pay an Invoice, click on the company from the vendor code on top. Then mouse click on all invoices you want to pay or, click "All" to pay all invoices. Total cash required is posted on the screen for total of all bills selected to pay.

To enter any invoices manually into the system that do not come from the P/O Module, click on the Company from the vendor code. Enter the invoice number and date. After you enter the invoice amount, any discount is automatically calculated by the system. You can also enter a note or tag line directly on the check.

PAYROLL IN A SNAP!

Doing payroll with Customer Design Software eliminates endless hours of pouring through tax tables each week. The employee is entered once in the customer database. CDS prints the payroll checks, S.U.T., F.U.T., 941 and W2's at the end of the year. Our software even tracks vacation and sick days.

To process the payroll, you simply bring up each employee that has earnings on the screen (left.) You add the hours worked, commission earned or, if salaried, the annual salary is already shown. That's it! Custom Design Software does the rest.

WINDOWS FURNITURE SOFTWARE

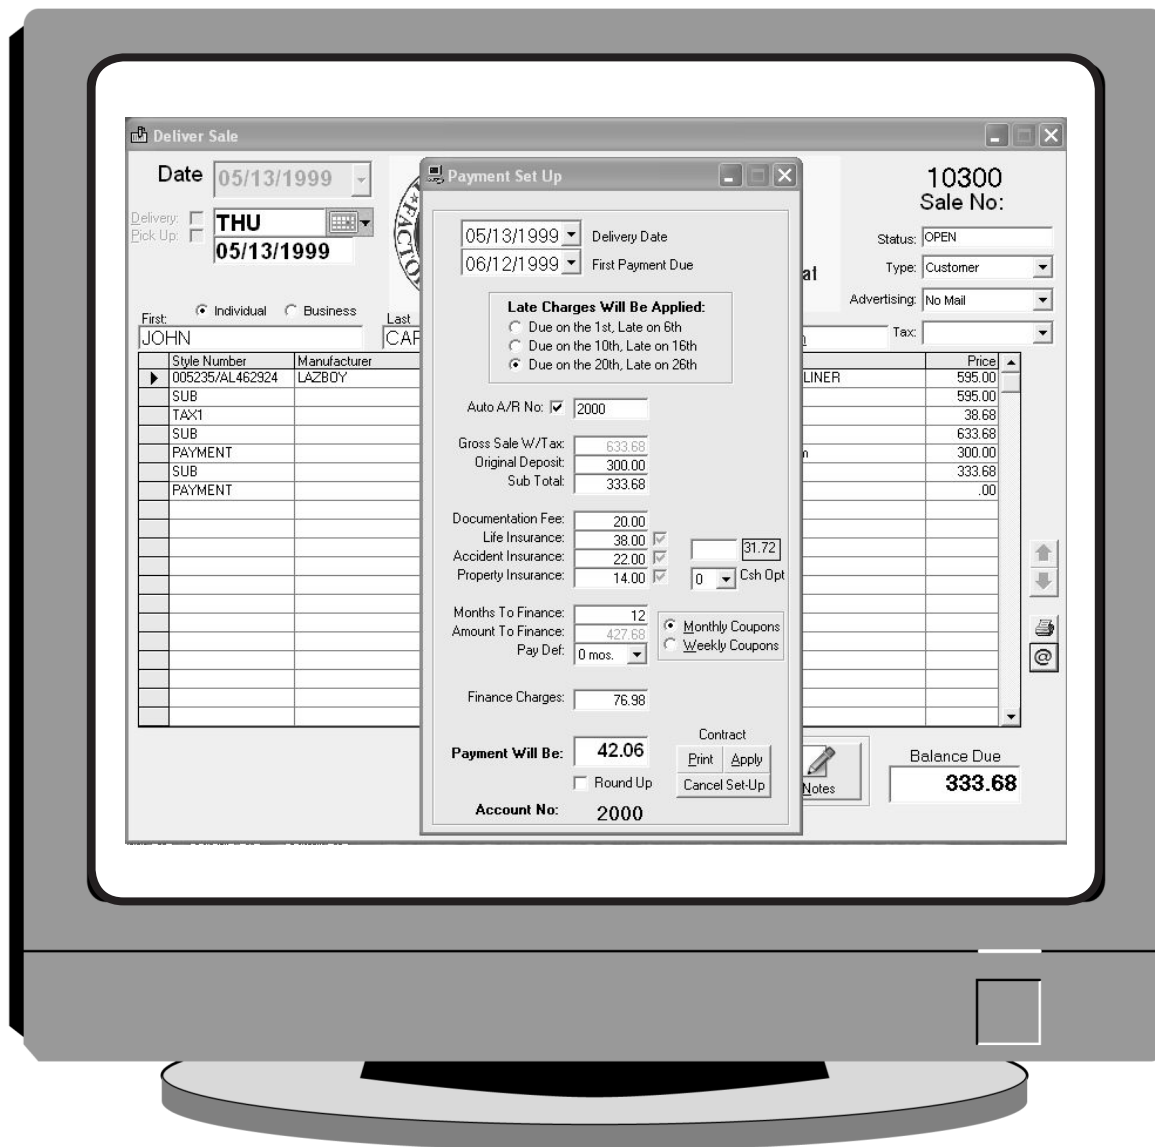

• FOR THE 21st CENTURY •

- Seamlessly jumps into installment module from either New Sales or Delivery of Sales.
- Built in Contract Estimator to answer the question from your sales staff, "How much per month."
- All information needed to set up the contract is generated by the computer. Just verify the months to finance.
- Contract is immediately generated by the computer, filled out ready to be signed.
- Personalized customer payment books are also generated by the computer before the customer leaves the store.
- Software checks for prior existing contacts and advises if you want to open a new account or do an "Add On" contract.
- Automatically pays off old contracts via Rule 78.
- On-screen Aging and Early Payoff for each account.
- Unlimited credit manager's notes with automatic time and date stamp.
- Full reporting including: Monthly Statement, Late Charges and Notices, Aging, Delinquent, Trial Balance and New and Closed account Reports.

**1731 Treyborne Circle
Commerce, MI 48390
Phone 800.884.0806
Fax 248.669.9514**

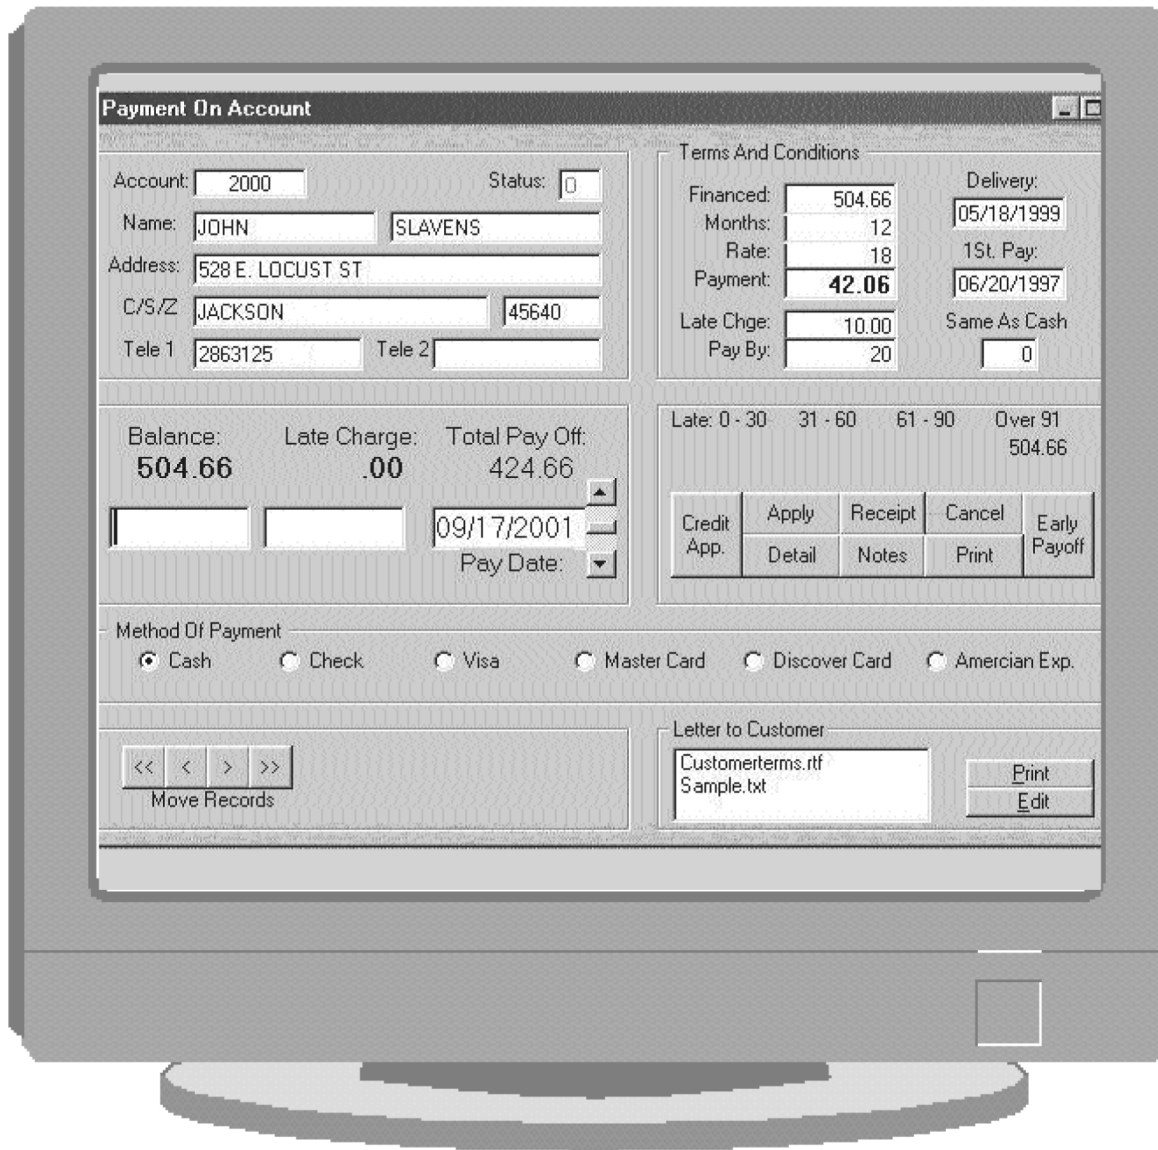

**SEE OUR DEMO:
www.customdesignsoftware.net**

Directly from the “Point of Sale,” or delivery screen, you select “Store Finance.” The above window pops up with everything entered for you. If you change anything, like months to finance, the computer automatically recalculates the Interest & payment.

If you want to change the default interest rate, double click on the small white box and the default interest rate will appear. You can change the rate and again the computer will recalculate the figures. Either click on “Apply” to process or “Print” to get a complete Installment Contract and personalized Coupon Book generated from the computer..

We also have a “Contract Estimator” section that will figure payments in advance of the sale. This is all you need to do to set up this sale in the installment module.

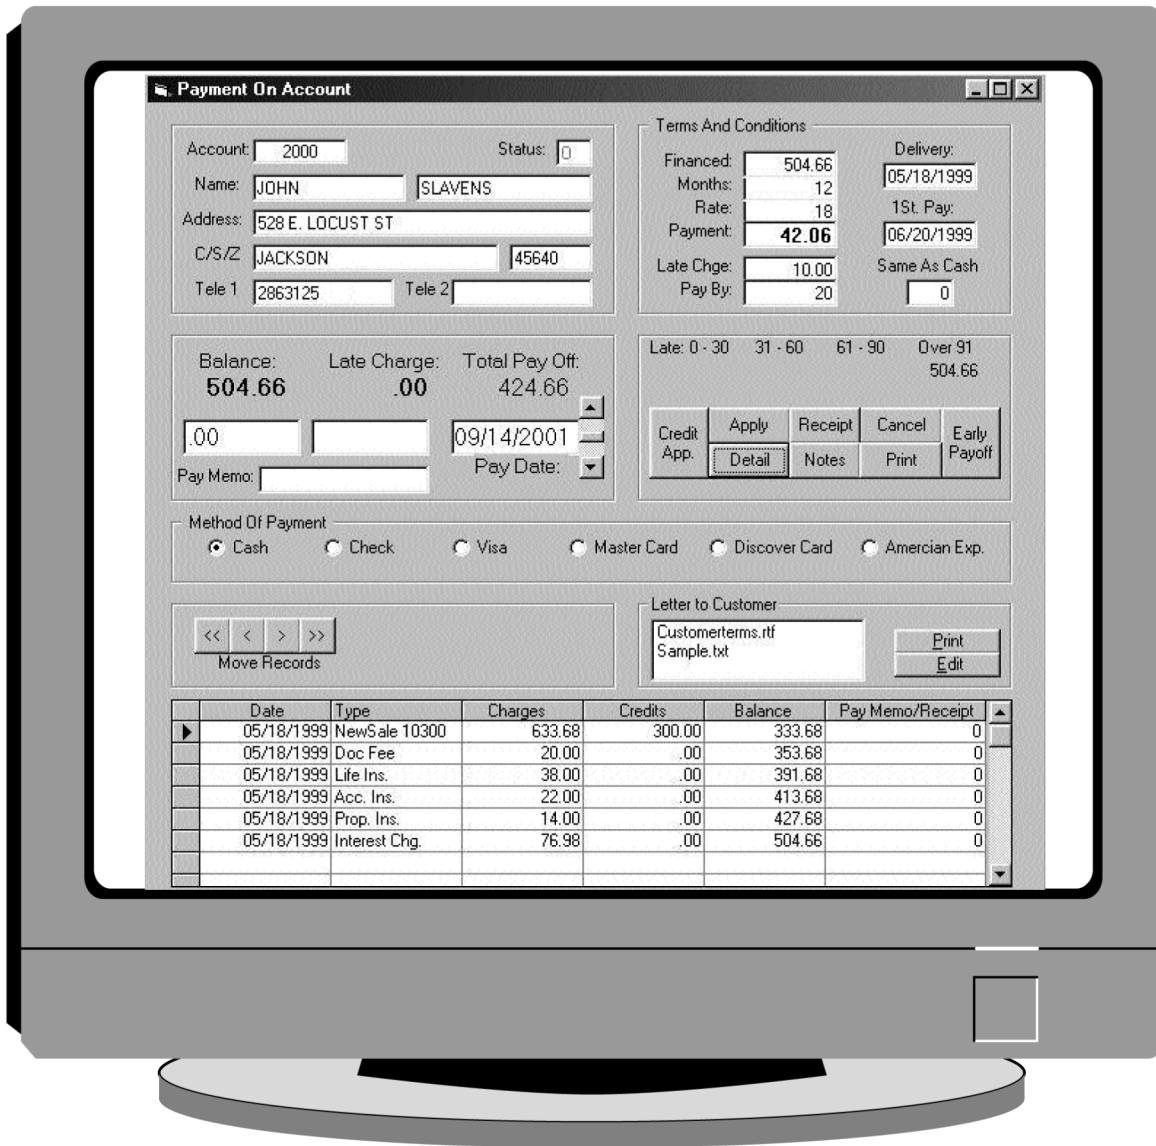

This is the main Customer Account Screen from which you can see all details about the account. Included for easy viewing are all the contract terms and information, Balance Due, Late Charges Due, and even the Pay Off Balance that is always current when you access the account. Also automatically shown on the screen, is a complete Customer Aging History.

When a customer calls, you can immediately tell them what their outstanding balance is or what their early payoff would be.

The computer tracks Late Charges separately from the principal balance. However, you can pay on both in one transaction.

You can create custom letters for any occasion and automatically print them from the software. Late charge notices are automatically generated and sent out during the month.

As you are viewing an account, click on the detail button, and every transaction for this account will appear on the screen. Use the slider on the right edge to move the grid to see the complete history.

By clicking on “Notes”, your credit manager can create unlimited notes that are automatically time and state stamped. It would be in place of the Detail Dropdown shown.

Buyer acknowledges that the seller has offered to sell the above described merchandise for the cash price indicated, but buyer has elected to purchase on the terms and conditions of this agreement. The undersigned (BUYER) purchases subject to the terms and conditions as set forth below, from the seller as named above.

The buyer agrees to pay the TOTAL of PAYMENTS in **11** consecutive monthly payments beginning **05/08/2001**. Each payment shall be **\$42.35** except the final payment which shall be **\$42.35**. You shall make your payments to us at our office or the address of anyone to whom we may transfer this account to.

SECURITY: To protect us, you give us a purchase money security interest created under the Uniform Commercial Code of this state in the Property sold and described under "Description Of Merchandise." You also give us a security interest in the proceeds from any unauthorized sale of the property, and the proceed of any insurance you requested. We waive any other security interest or lien which may arise by operation of law, except the lien of any judgment which we may obtain if this contract is not paid in accordance with its terms. Any note given in connection with this contract is understood to be as evidence of, and not in payment of, the obligation hereunder and may be negotiated without waiving any conditions thereof.

USE AND LOCATION OF PROPERTY: If you are buying the property primarily for personal, family, or household use, you agree not to use the property in violation of the law. The property must remain at your address shown or get written permission in advance to move the merchandise.

- DEFAULT:** You are in default if:
- A. We do not receive an installment payment from you on or before due date.
 - B. You break one or more of your promises under this contract.
 - C. You make any statement or representation in connection with this contract which is false in any material respect.
 - D. Insolvency action are begun by or against you; insolvency includes situations where you are unable to pay all you debts as they become due.

ACCELERATION: If you are in default, we may demand immediate payment of the entire amount you owe. This includes all the remaining monthly payments you must pay. We shall have all rights and remedies given by the Uniform Commercial Code. This includes the right to retain property.

REPOSSESSION: If we retake the property, we have the right to sell it at public or private sale and apply the proceeds of the sale to what you owe, less selling expense. You agree to pay the difference between the sale proceeds to what you owe. We are permitted by law to collect the difference from you. If we receive more money for the sale than you owe, we will pay the surplus amount to you.

ATTORNEY'S FEES AND COURT COST: If this Contract is given to an attorney for collection, you shall pay reasonable attorney's fees, as provided by the laws of this state in which the contract is executed. You will also pay any court costs if permitted by the law.

ENTIRE CONTRACT: No oral promises or statement are part of this contract. No warranties or representations, whether they are written or arise by operation of law are part of this Contract unless we give you a written warranty in connection with this contract.

SIGNERS OF CONTRACT: If there are more than one of you signing this contract, each of you is individually responsible to see that you fully perform all obligations under this Contract. It is your responsibility to know whether this contract is in default or that the payments have been missed. We are not responsible for notifying you of late payments, or any default proceedings.

FINANCING STATEMENT: You will sign financing statements showing our security interest in the Property which we can file from time to time in any filing office we think appropriate.

FILING FEES FOR FINANCING THIS STATEMENT: You will pay any required filing fees on these statements.

NO WAIVER OF RIGHTS: We do not waive our right to have future payments made when due if we accept a late or partial payment or delay the enforcement of our rights on any occasion.

LAW APPLICABLE: This contract is governed by the law if this state in which it is executed.

INVALID PROVISIONS: If any part of this contract becomes invalid or unenforceable the remainder of the Contract will be enforceable.

NOT PAID IN TIME LIMIT: If contract is not paid in the months shown on this contract, then interest will continue to be charges at the contract rate.
